

# ANLT5050

How do I access SAS Studio, SAS Enterprise Guide and SAS Enterprise Miner?

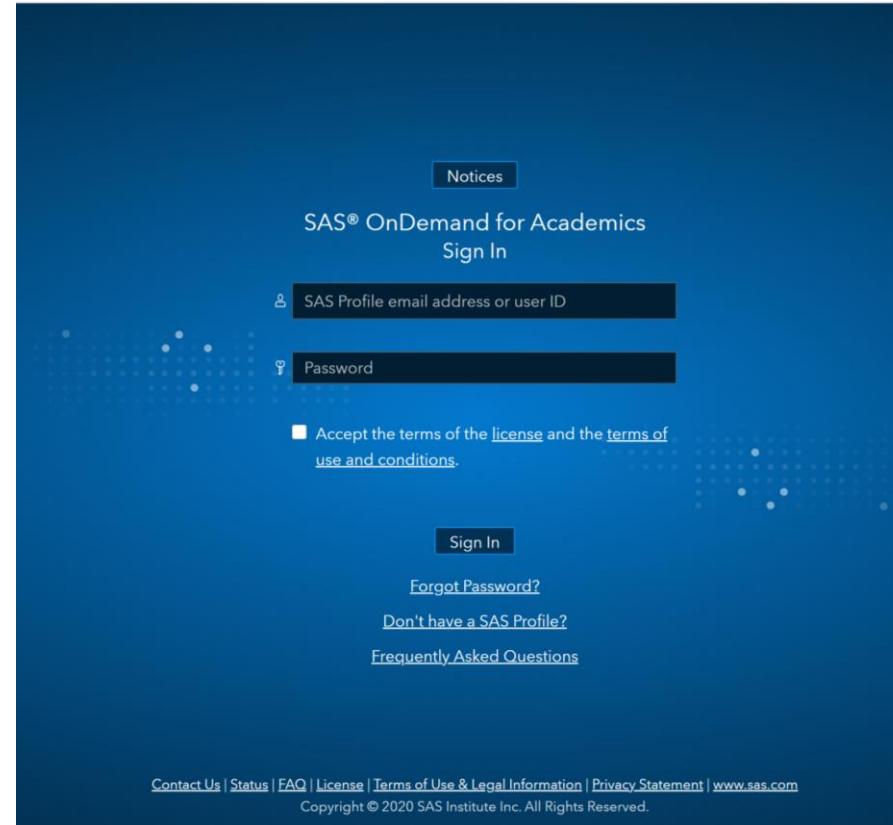

# Use the following instructions to sign up for our ANLT5050 course on SAS On Demand for Academics:

- 1) As a first step, please create your account for SAS OnDemand for Academics. To register, visit <https://odamid.oda.sas.com> and click on Register for an account.
- 2) After you have successfully created your account, follow these steps:
  - Sign on the the Control Center at <https://odamid.oda.sas.com>.
  - Look for the Enroll in a course link in the "Enrollments" section near the bottom of the page. (Click this link to start the enrollment.)
  - Enter the course code: **0ba15efe-32d7-40e6-ae84-c67a0143f7c5**
  - Submit the form.
  - Confirm that this is the correct course and then click the button to finish enrolling.
- For more information about SAS OnDemand for Academics, including step-by-step registration instructions, visit the following site:  
<http://support.sas.com/ondemand>.

# SAS OnDemand for Academics (SODA) Control Center

The screenshot shows the SAS OnDemand for Academics (SODA) Control Center dashboard. At the top right, there are links for "United States" and a user profile for "Stefanie Reay". The main title is "SAS® OnDemand for Academics Dashboard". Below the title, there are two tabs: "Planned Events" and "Notices", with "Planned Events" being the active tab. A navigation bar at the top has three items: "Applications", "Enrollments", and "Courses", with "Applications" being the active tab. The main content area displays five software applications with their icons and descriptions:

- SAS® Studio**: Write and run SAS code with a Web-based SAS development environment. Actions: [Clear my saved tabs](#).
- SAS® Enterprise Guide®**: Deliver the power of SAS from an easy-to-use, point-and-click interface. ([Download Required](#))
- SAS® Enterprise Miner™**: Reveal valuable insights with powerful data mining software. ([Configuration Steps Required](#)) Actions: [Clear my project locks](#).
- SAS® Forecast Studio**: Generate large numbers of high-quality forecasts automatically. ([Configuration Steps Required](#)) Actions: [Manage your personal environment](#).
- JMP® Software access to SAS® hosted servers**: Statistical discovery software. Users must have a copy of JMP® software. ([Configuration Steps Required](#))

On the right side, there is a "Reference" section with links to "Support Site", "Step-by-Step Reference Guides", and "Frequently Asked Questions". Below that is a "Quotas" section with two progress bars: "Home Directory (46.5MB/5120MB)" at 1% and "Course Directory (207.0MB/3072MB)" at 7%.

At the bottom, there is a link to "Other Ways to Access SAS® OnDemand for Academics Resources".

# SAS Studio

<https://odamid.oda.sas.com/SASStudio/>

The screenshot shows the SAS Studio interface. At the top is a blue header bar with the text "SAS® Studio". To the right of the header are several icons: a person, a document, a globe, a gear, "SAS Programmer", a help icon, and "Sign Out". Below the header is a sidebar titled "Server Files and Folders". Under this title are icons for back, forward, search, and refresh. A tree view shows a node "odaws02-usw2" expanded, revealing "Folder Shortcuts" and "Files (Home)". The main workspace is mostly empty, featuring a large "Drag an item here to open" placeholder area with three data visualization icons (bar chart, pie chart, and grid). At the bottom of the sidebar is a list of links: "Tasks and Utilities", "Snippets", "Libraries", and "File Shortcuts". At the very bottom of the screen, there is a footer bar with "Messages" and "User: stefaniegreay".

### SAS OnDemand for Academics: Enterprise Guide

Release 7.15 - May 2018

The SAS OnDemand for Academics: Enterprise Guide download package is available below. Download the setup file and follow the instructions to install the client on your machine. Please review the installation notes below for information about requirements and download speeds.

#### SAS Enterprise Guide 8

If you are interested in using please [CLICK HERE](#) to download that package.

\*It is NOT supported and NOT recommended to have BOTH versions of SAS Enterprise Guide on the same machine.

SAS OnDemand for Academics: Enterprise Guide				
Platform	Description	Request Download	Size	Release Date
Windows	SAS OnDemand for Academics: Enterprise Guide	<a href="#">eguideoda_signed.exe</a>	391.2 MB	2018-02

Note: Microsoft Windows desktop platforms supported include

- Microsoft Windows 7 with Service Pack 1 (Professional, Enterprise and Ultimate Editions)
- Microsoft Windows 8 (Professional and Enterprise)
- Microsoft Windows 8.1 (Professional and Enterprise)
- Microsoft Windows 10 (Professional and Enterprise)

See the [SAS Enterprise Guide System Requirements](#) document for more information.

#### Installation Notes:

Microsoft .NET Framework 4.5.1 or later is required. If your computer already has the required files, then the installation process will usually take 2-5 minutes. Note that some Microsoft Windows versions include the

# Accept Terms of Service

The screenshot shows a web browser displaying the SAS Support website. The main page has a navigation bar with 'MENU', the 'sas' logo, and 'SUPPORT'. Below this, a sidebar on the left lists various support categories like 'Manage Tracks', 'SAS Administrators', 'Security Bulletins', etc., with 'Downloads & Hot Fixes' expanded to show sub-options for SAS System Software, DataFlux Software, JMP Software, Mobile Device Software, Third Party Software, Additional Products, and Hot Fixes. The main content area shows a 'Downloads' section for 'SAS OnDemand for Academics' Release 7.15 - May 2018. A modal dialog box titled 'SAS License Agreement for Download' is overlaid on the page. The dialog contains the 'SAS Institute Inc.' logo and the 'License Agreement for Corrective Code or Additional Functionality'. It details the terms of the license, mentioning that by accepting, the user agrees to the terms and conditions. It also states that the user is downloading software code which will become part of a software product ('Software') licensed from SAS Institute Inc. The dialog concludes with 'EXPORT/IMPORT RESTRICTIONS' and ends with two buttons at the bottom: 'Accept' and 'Do Not Accept'.

Installation Notes:

SAS License Agreement for Download

**SAS Institute Inc.**

**License Agreement for Corrective Code or Additional Functionality**

PLEASE CAREFULLY READ THE TERMS AND CONDITIONS OF THIS LICENSE AGREEMENT ("AGREEMENT"). BY ACCEPTING THIS AGREEMENT AND/OR USING THE CODE, AS DEFINED BELOW, YOU, ON BEHALF OF CUSTOMER, AS DEFINED BELOW, ARE AGREEING TO THESE TERMS AND SAS, AS DEFINED BELOW, WILL AUTHORIZE YOU TO DOWNLOAD THE CODE. YOU REPRESENT AND WARRANT THAT YOU HAVE FULL AUTHORITY TO BIND CUSTOMER TO THIS AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THIS AGREEMENT, DO NOT ACCEPT THIS AGREEMENT OR ATTEMPT TO DOWNLOAD THE CODE.

You are downloading software code ("Code") which will become part of a software product ("Software") that is currently licensed from SAS Institute Inc. or one of its subsidiaries ("SAS") under a separate software license agreement ("Software License Agreement"). The legal entity that entered into the Software License Agreement with SAS is defined as "Customer." The Code is designed either to correct an error in the Software or to add functionality to the Software. The Code is governed by the Software License Agreement and this Agreement. If you are not an authorized user under the Software License Agreement, you may not download the Code.

In addition to the terms of the Software License Agreement, the following terms apply to the Code:

**EXPORT/IMPORT RESTRICTIONS.** SAS hereby notifies Customer that the Code is of United States of America ("United States") origin and United States export laws and regulations apply to the Code. Both SAS and Customer agree to comply with these and other applicable export and import laws and regulations. Customer's compliance obligations include ensuring (a) that there is no access, download, export, re-export, import, or distribution of the Code or any underlying information, technology or data except

# Click on SAS Enterprise Miner and then click “Keep”

The screenshot shows the SAS® OnDemand for Academics Dashboard. At the top right, there are links for "United States" and a user profile for "Stefanie Reay". Below the header, there are tabs for "Planned Events" and "Notices". A navigation bar at the top has three tabs: "Applications" (which is selected), "Enrollments", and "Courses". The main content area displays five applications:

- SAS® Studio**: Write and run SAS code with a Web-based SAS development environment. Actions: [Clear my saved tabs](#).
- SAS® Enterprise Guide®**: Deliver the power of SAS from an easy-to-use, point-and-click interface. (Download Required)
- SAS® Enterprise Miner™**: Reveal valuable insights with powerful data mining software. (Configuration Steps Required) Actions: [Clear my project locks](#).
- SAS® Forecast Studio**: Generate large numbers of high-quality forecasts automatically. (Configuration Steps Required) Actions: [Manage your personal environment](#).
- JMP® Software access to SAS® hosted servers**: Statistical discovery software. Users must have a copy of JMP® software. (Configuration Steps Required)

On the right side, there is a "Reference" section with links to "Support Site", "Step-by-Step Reference Guides", and "Frequently Asked Questions". Below that, there are "Quotas" sections for "Home Directory" (46.5MB/5120MB) and "Course Directory" (207.0MB/3072MB), each with a progress bar.

At the bottom left, there is a warning message: "This type of file can harm your computer. Do you want to keep main (3).jnlp anyway?". It includes "Keep" and "Discard" buttons. At the bottom right, there are "Show all" and "X" buttons, and a small speaker icon.

# Click on “main.jnlp” to start validation and installation

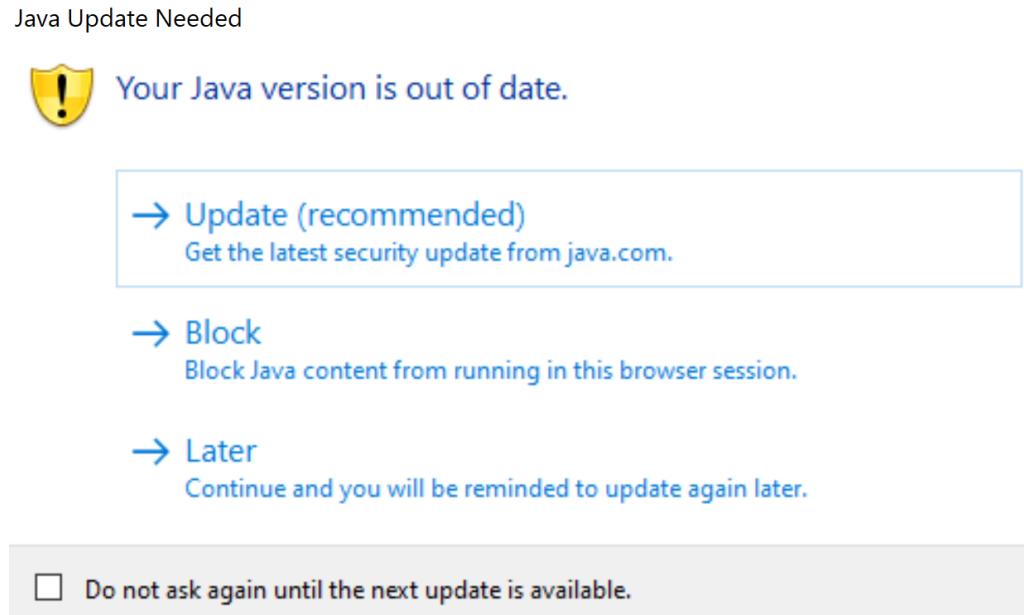

The screenshot shows the SAS® OnDemand for Academics Dashboard. At the top, there is a navigation bar with a SAS logo, a dropdown menu for 'United States', and a user profile for 'Stefanie Reay'. Below the navigation bar, the title 'SAS® OnDemand for Academics Dashboard' is displayed. A horizontal menu bar contains 'Planned Events' and 'Notices' buttons. Underneath the menu, there are three tabs: 'Applications', 'Enrollments', and 'Courses', with 'Applications' being the active tab. The main content area lists five software applications with their icons and descriptions:

- SAS® Studio**: Write and run SAS code with a Web-based SAS development environment. Actions: [Clear my saved tabs](#).
- SAS® Enterprise Guide®**: Deliver the power of SAS from an easy-to-use, point-and-click interface. (Download Required)
- SAS® Enterprise Miner™**: Reveal valuable insights with powerful data mining software. (Configuration Steps Required) Actions: [Clear my project locks](#).
- SAS® Forecast Studio**: Generate large numbers of high-quality forecasts automatically. (Configuration Steps Required) Actions: [Manage your personal environment](#).
- JMP® Software access to SAS® hosted servers**: Statistical discovery software. Users must have a copy of JMP® software. (Configuration Steps Required)

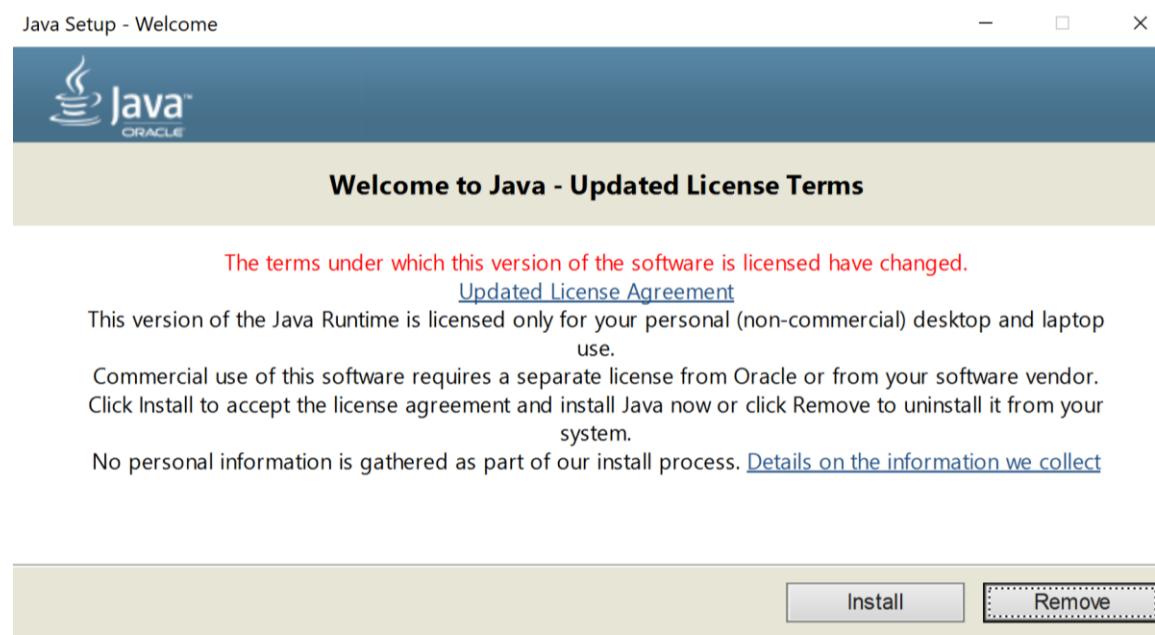

To the right of the application list, there is a 'Reference' section with links to 'Support Site', 'Step-by-Step Reference Guides', and 'Frequently Asked Questions'. Below the reference section, there are two progress bars for 'Quotas': 'Home Directory (46.5MB/5120MB)' at 1% and 'Course Directory (207.0MB/3072MB)' at 7%.

At the bottom of the dashboard, there is a window titled 'main (3).jnlp' with a 'Show all' button and a close 'X' button. The status bar at the bottom of the slide indicates 'Page 11 of 11'.

If your Java needs to be updated, you will receive a warning similar to that shown below.

# Click “Install” to install the Java update

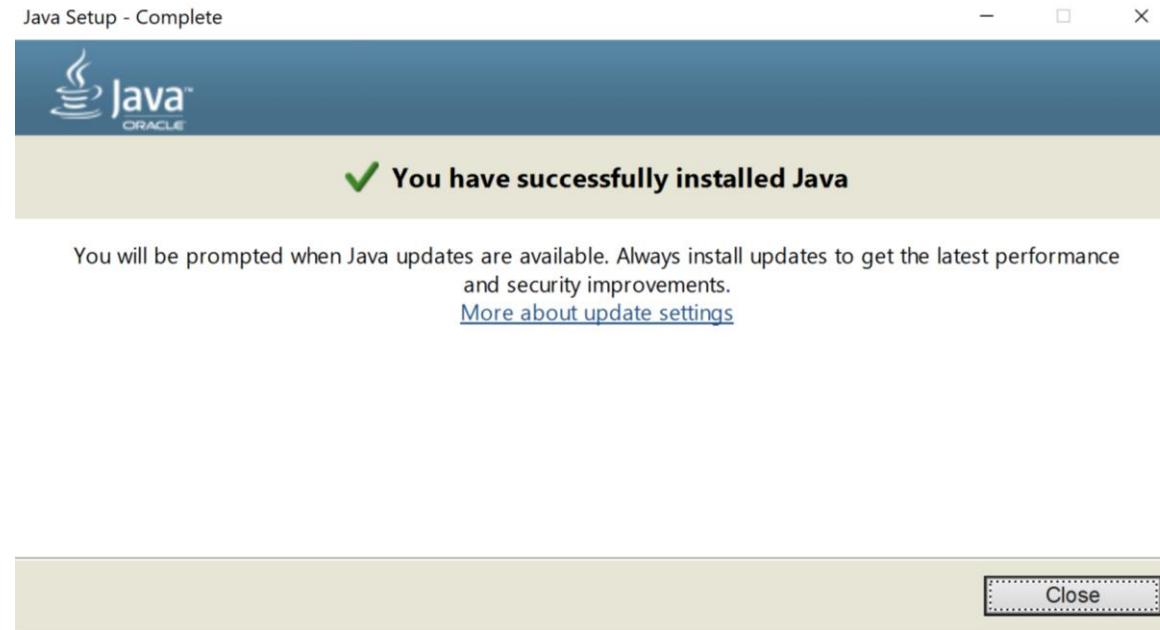

# The Java update installation will begin.

You will then receive confirmation of successful Java installation, similar to below.

Once Java is successfully installed, click “Close,” and then you can return and click on “SAS Enterprise Miner” once again.

# Click on SAS Enterprise Miner and then click “Keep”

The screenshot shows the SAS® OnDemand for Academics Dashboard. At the top right, there are links for "United States" and "Stefanie Reay". Below the header, there are tabs for "Planned Events" and "Notices". A navigation bar at the top has three tabs: "Applications" (which is selected), "Enrollments", and "Courses". The main content area displays five applications:

- SAS® Studio**: Write and run SAS code with a Web-based SAS development environment. Actions: [Clear my saved tabs](#).
- SAS® Enterprise Guide®**: Deliver the power of SAS from an easy-to-use, point-and-click interface. (Download Required)
- SAS® Enterprise Miner™**: Reveal valuable insights with powerful data mining software. (Configuration Steps Required) Actions: [Clear my project locks](#).
- SAS® Forecast Studio**: Generate large numbers of high-quality forecasts automatically. (Configuration Steps Required) Actions: [Manage your personal environment](#).
- JMP® Software access to SAS® hosted servers**: Statistical discovery software. Users must have a copy of JMP® software. (Configuration Steps Required)

On the right side, there is a "Reference" section with links to "Support Site", "Step-by-Step Reference Guides", and "Frequently Asked Questions". Below that, there are "Quotas" sections for "Home Directory" (46.5MB/5120MB, 1% used) and "Course Directory" (207.0MB/3072MB, 7% used).

At the bottom left, there is a warning message: "This type of file can harm your computer. Do you want to keep main (3).jnlp anyway?". It includes "Keep" and "Discard" buttons. At the bottom right, there are "Show all" and "X" buttons.

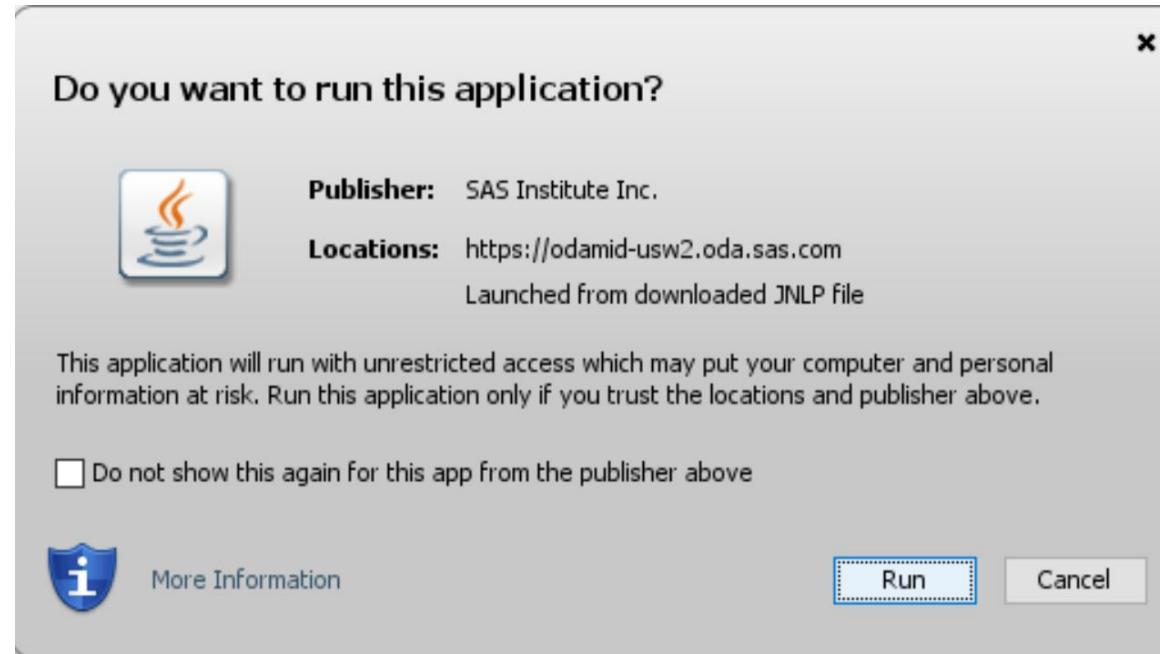

# Click on “main.jnlp” to start validation and installation

The screenshot shows the SAS® OnDemand for Academics Dashboard. At the top, there's a navigation bar with the SAS logo, a dropdown for 'United States', a user profile for 'Stefanie Reay', and a dropdown menu. Below the header, the title 'SAS® OnDemand for Academics Dashboard' is displayed, along with 'Planned Events' and 'Notices' buttons. A main content area features five application cards: 'SAS® Studio', 'SAS® Enterprise Guide®', 'SAS® Enterprise Miner™', 'SAS® Forecast Studio', and 'JMP® Software access to SAS® hosted servers'. Each card includes a small icon, the application name, a brief description, and an 'Actions' link. To the right, a 'Reference' section contains links to 'Support Site', 'Step-by-Step Reference Guides', and 'Frequently Asked Questions'. Below that, 'Quotas' are listed with progress bars: 'Home Directory (46.5MB/5120MB)' at 1% and 'Course Directory (207.0MB/3072MB)' at 7%. The bottom of the window shows a taskbar with a file named 'main (3).jnlp' and a 'Show all' button.

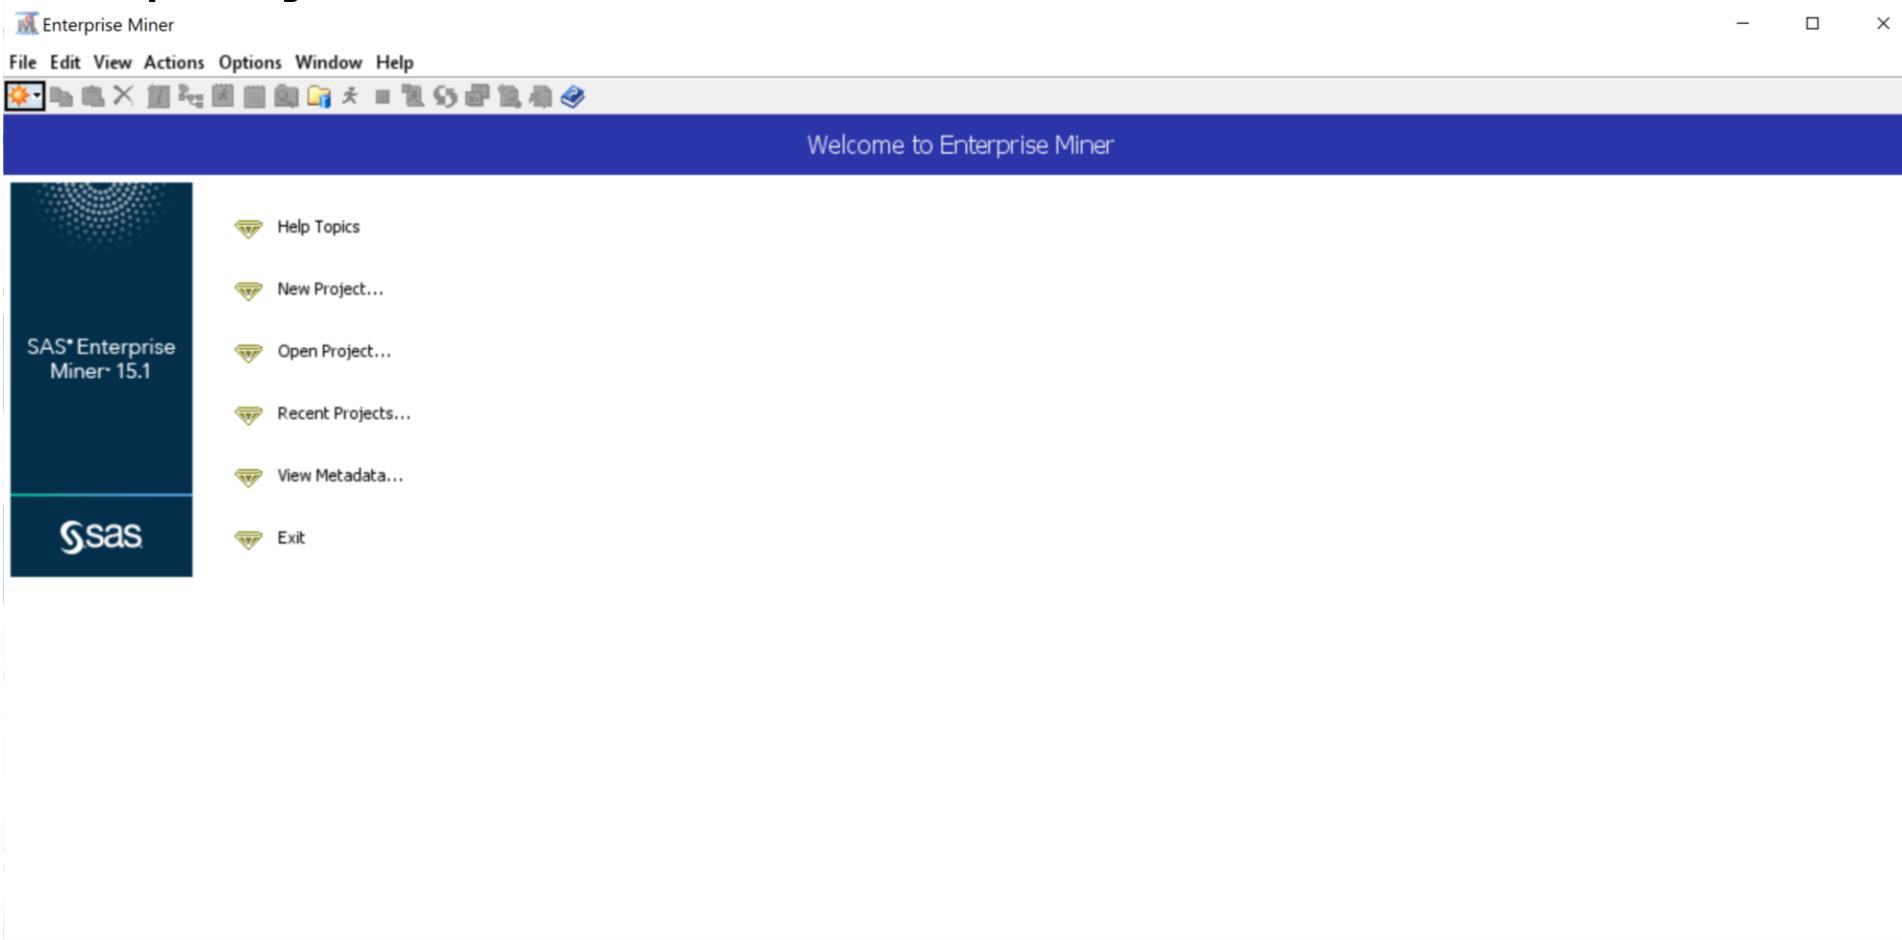

You will see a “Starting application...” window pop up.

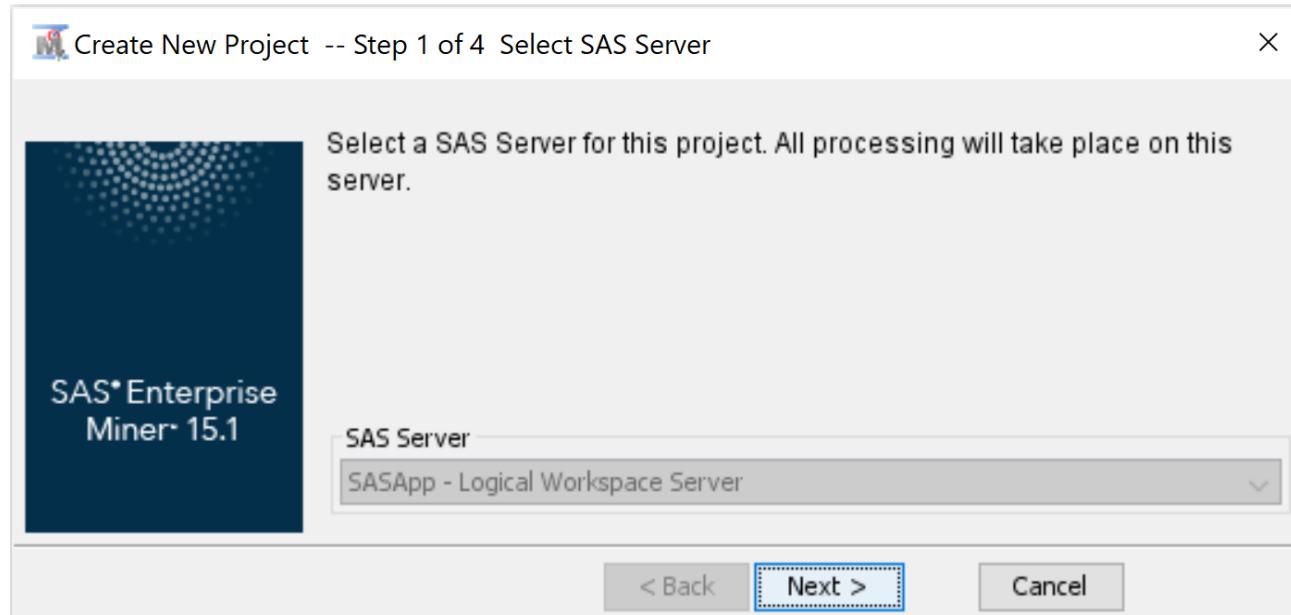

You will see a “Starting application...” window pop up. Click “Run.”

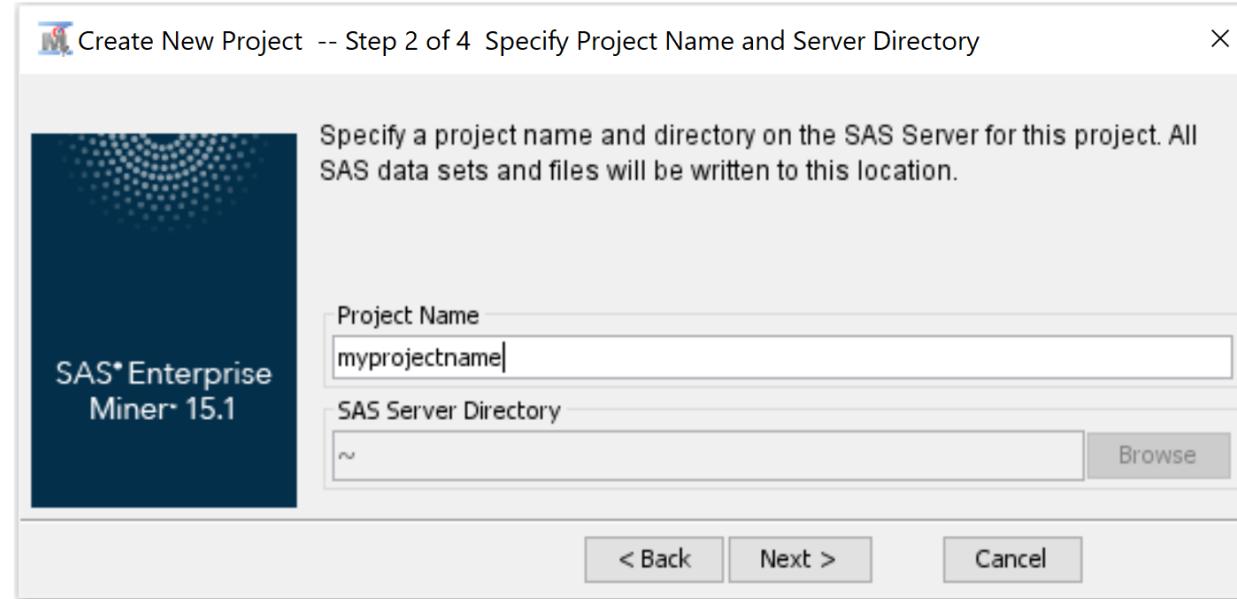

The Enterprise Miner Application will then pop up. Clicking on “New Project” will allow you to start a new project.

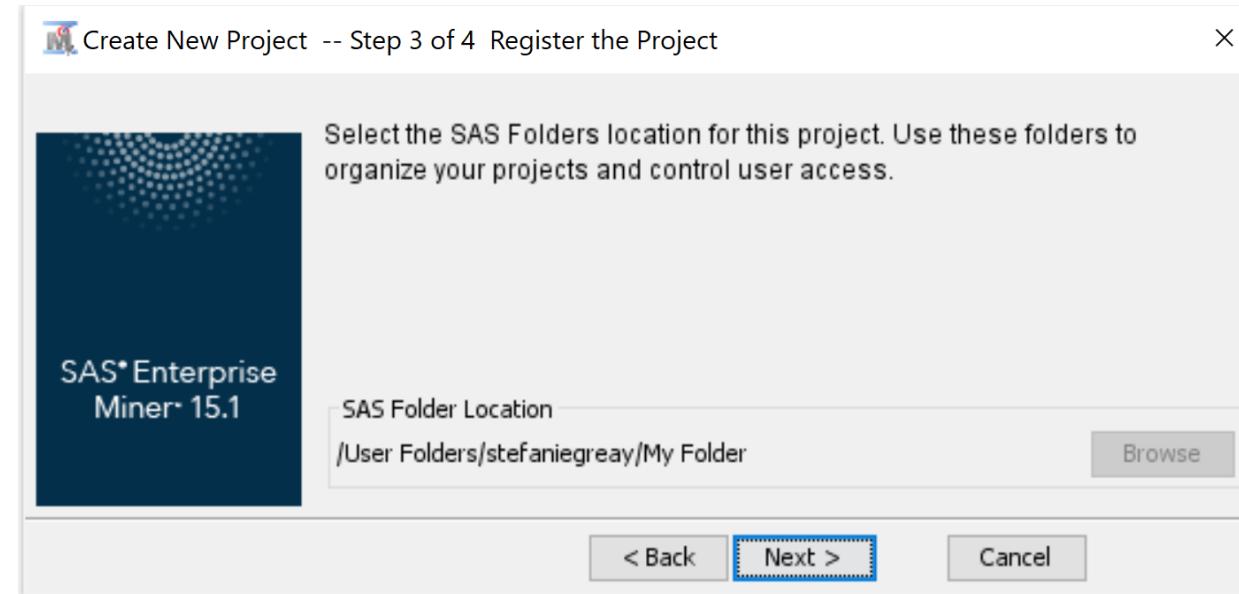

Click on “Next >” to continue setting up the project using the default SASApp server.

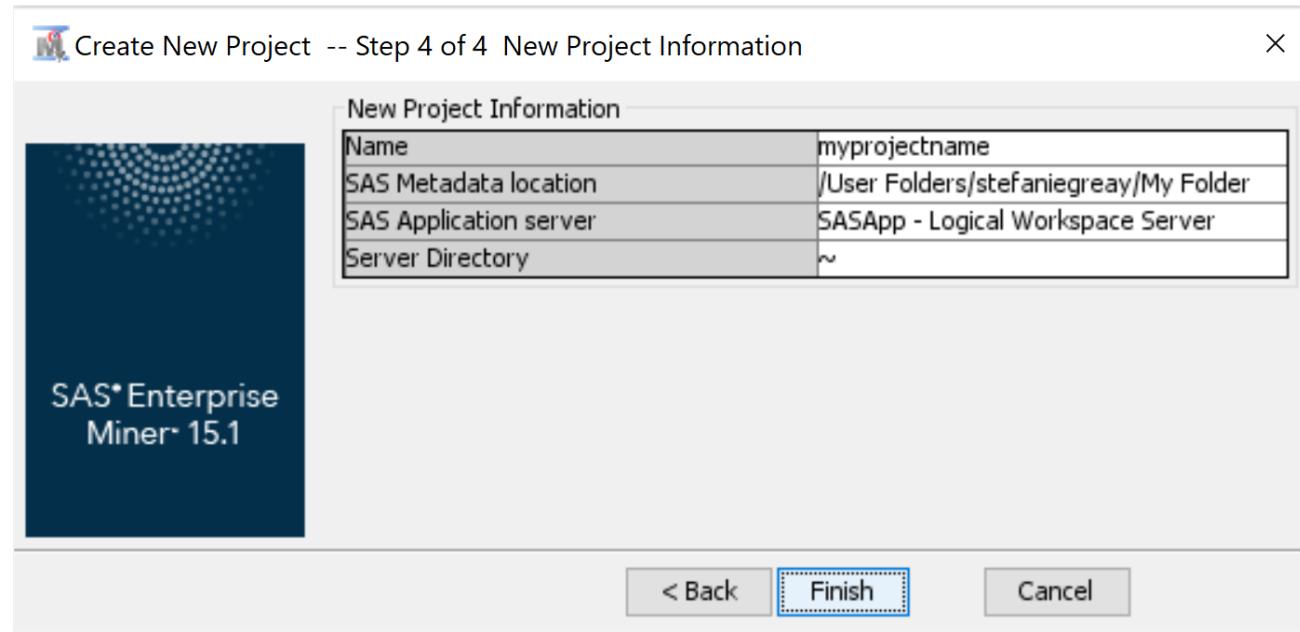

Enter a name for your project, then click “Next >.”

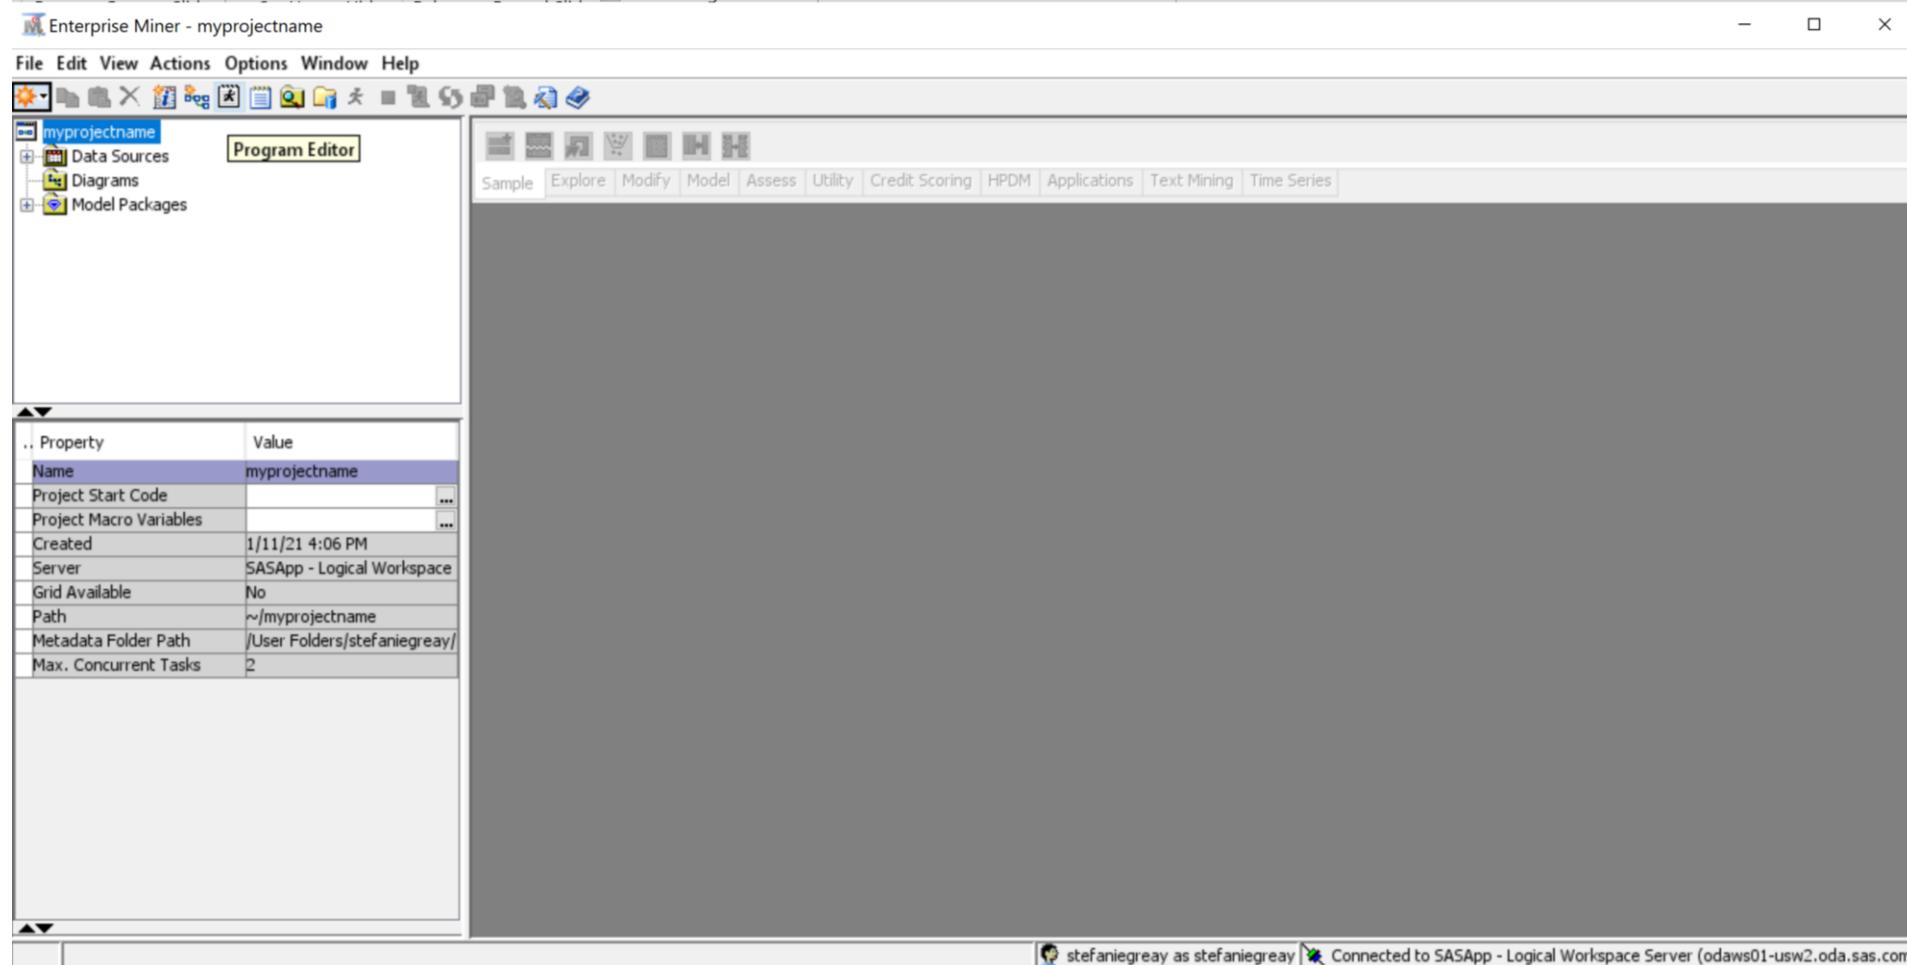

Click “Next >” to save the project in the default location.

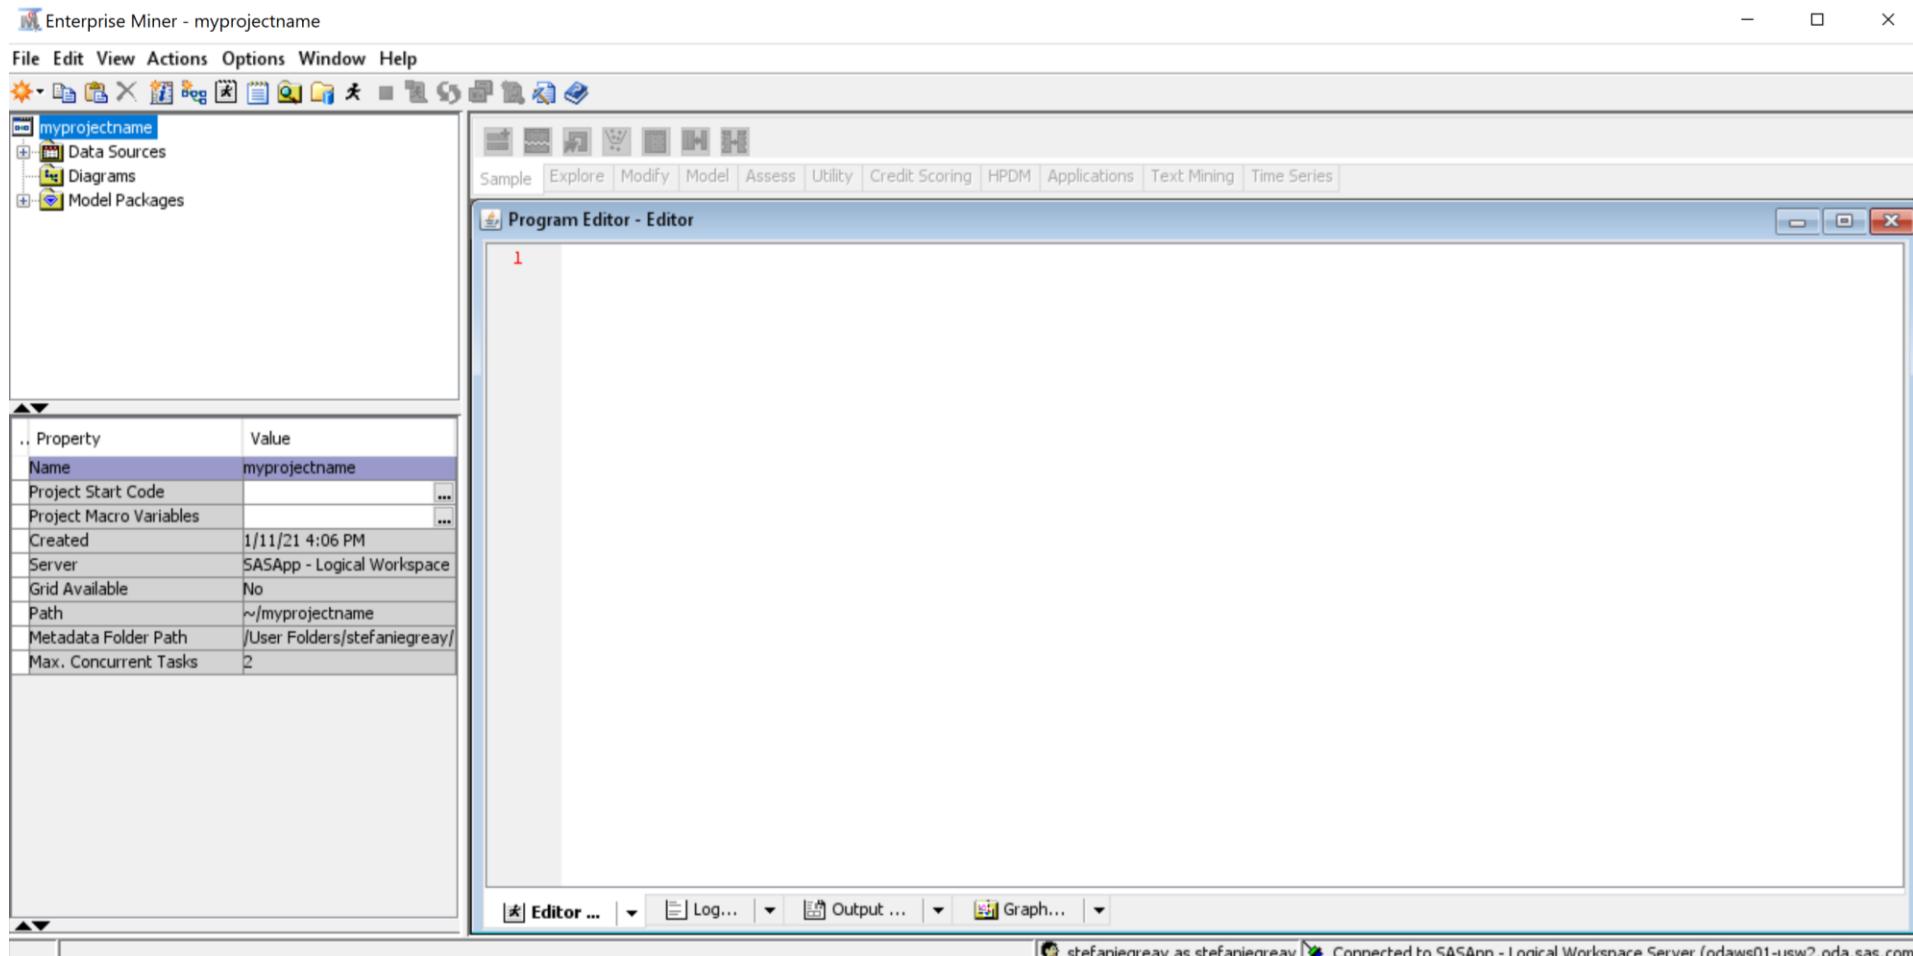

# Click “Finish” to complete the SAS Enterprise Miner project setup.

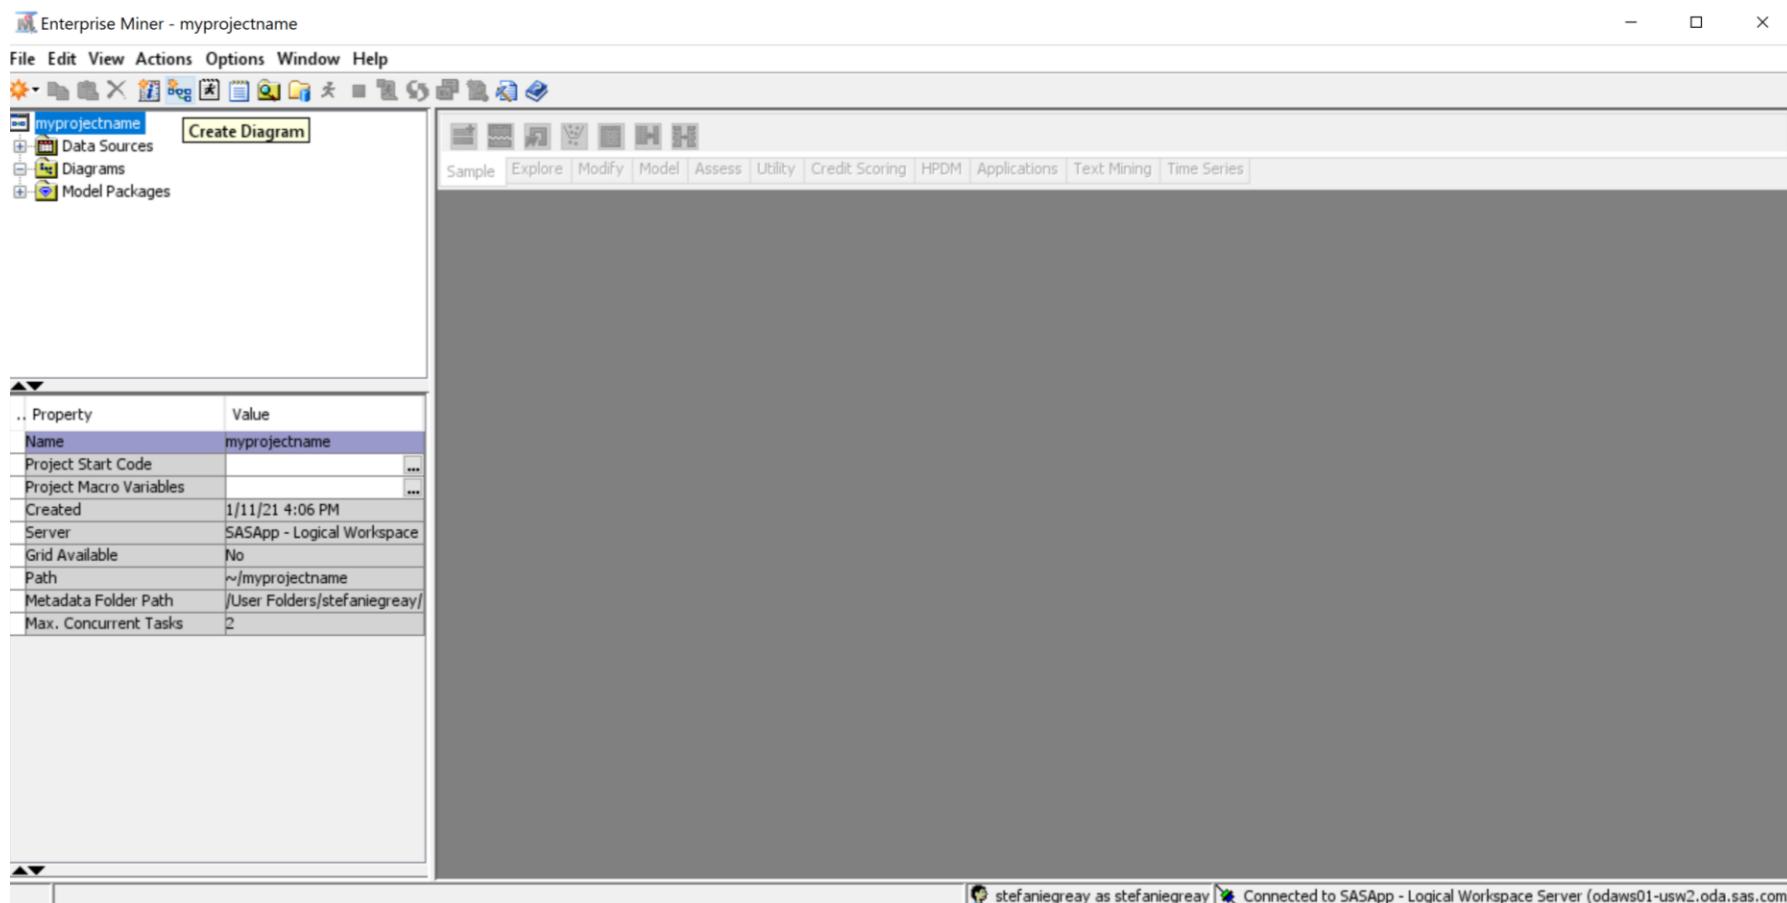

You can click on the icon that looks like a notebook with a guy on it to open the program editor.

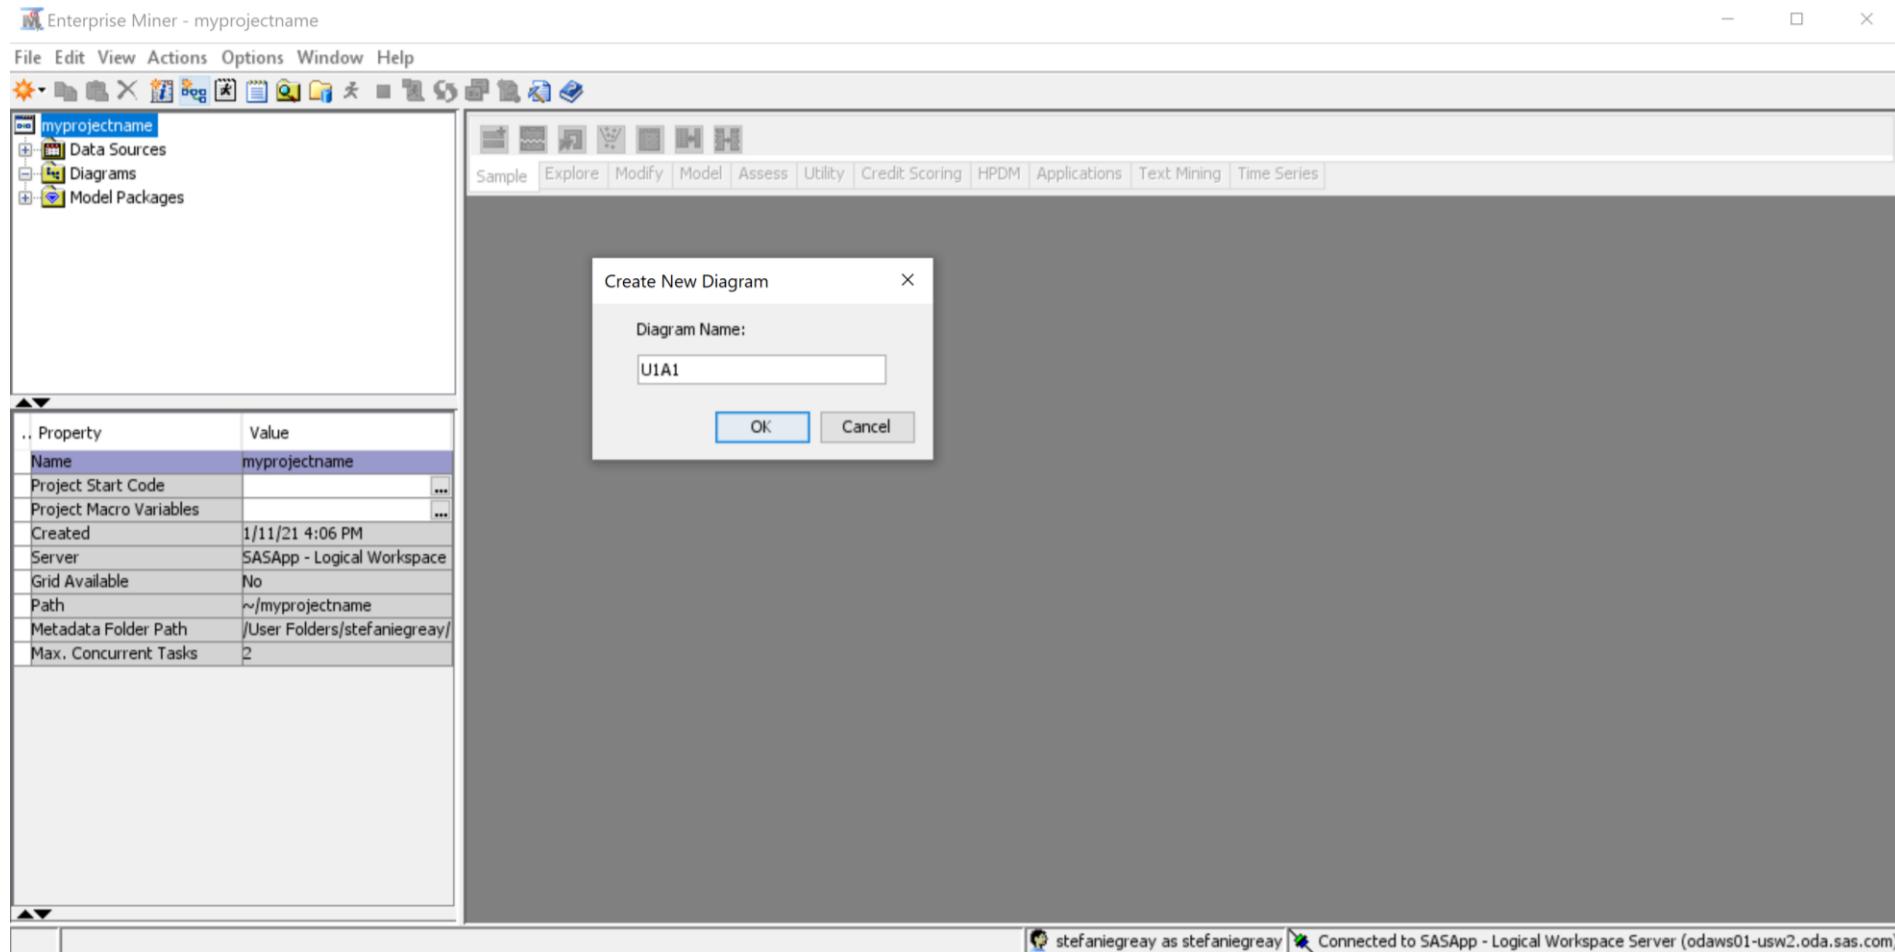

# You can enter any SAS PROC, data step or other SAS programming statements here.

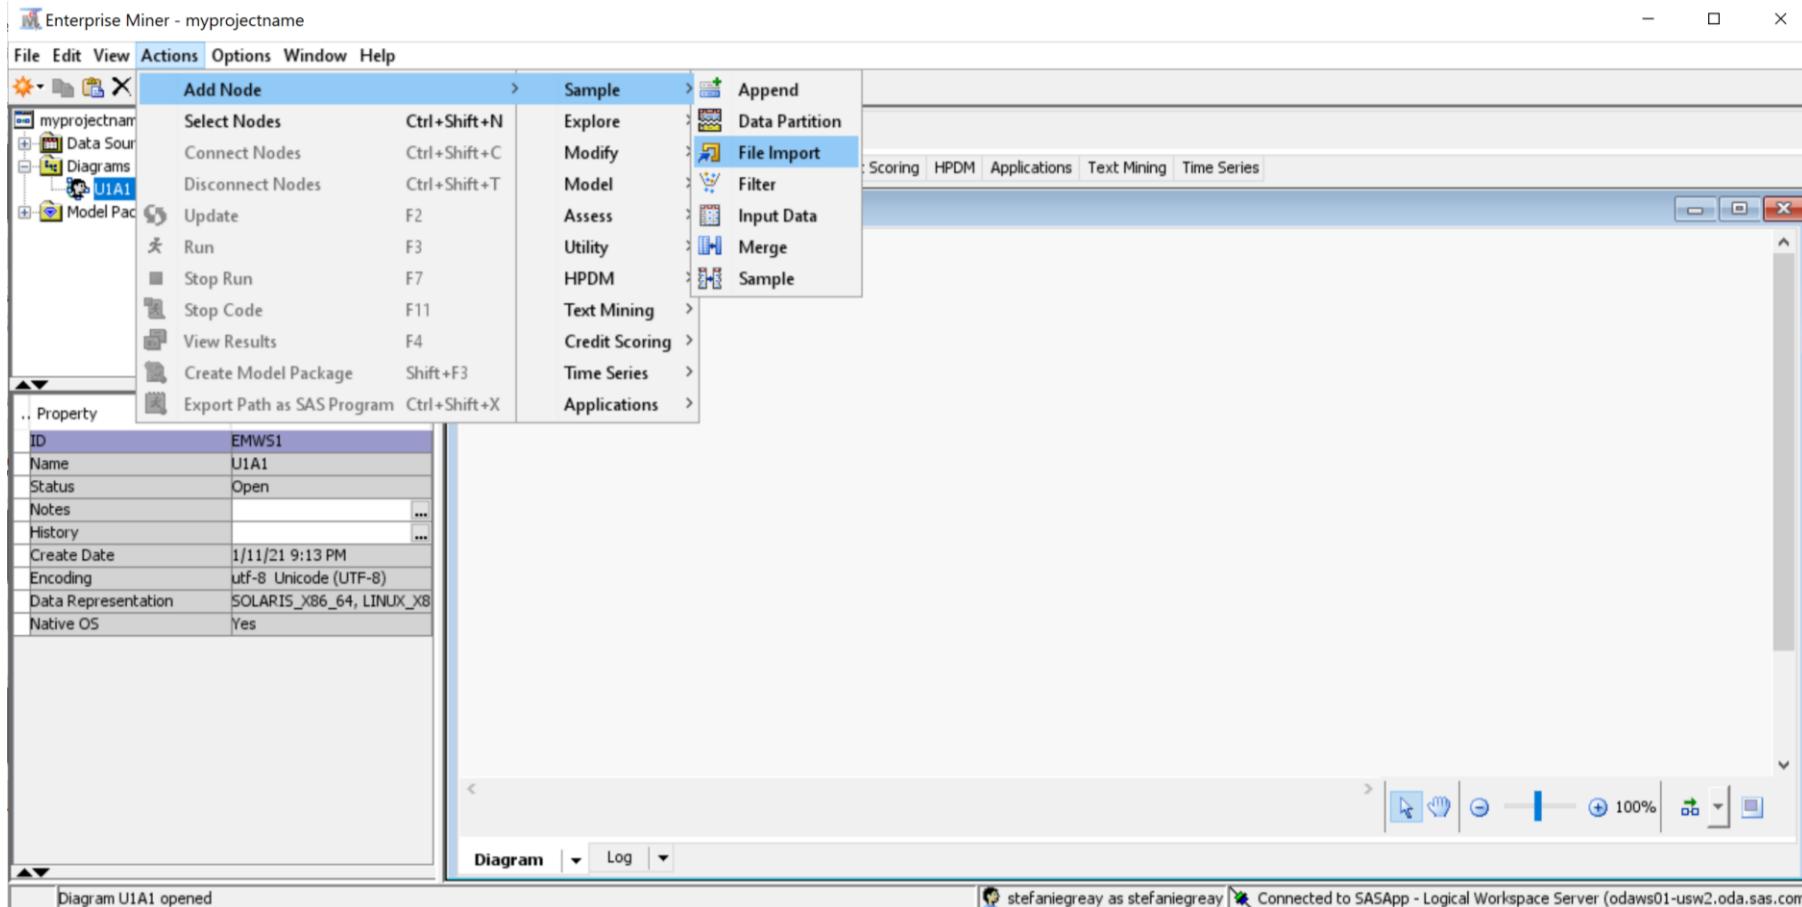

Alternatively, to use the graphical user interface tasks, you can create a diagram using the icon directly to the left.

# Name the diagram in the dialog box that pops up, then click “OK.”

You can then use one of the Actions (aka nodes) to import, process, and analyze your data within SAS Enterprise Miner.
